Please share an example of how the world is interconnected in this way or explain a project or activity that you created that was “interdisciplinary.”
4. An important standard of Lights Academy is that in addition to meeting your own learning goals, participants are expected to support others and help classmates achieve their goals as well. Describe how you have helped others meet their personal goals in the past.
5. Lights Academy expects students to be self-motivated, organized, and driven to succeed in a learning environment that has far less structure than a traditional classroom.
